Climate Change : Examining our Responses, Global and Local

JOIN a group of knowledgeable and concerned people from Xavier and the Cincinnati community for a discussion of the implications and issues connected with the 2015 International Climate Change Agreement recently accepted by 195 countries in Paris

What do these mean for the way we live our lives? What do they mean for the way we ought to live our lives? What are the policy implications for the US and the rest of the world? Can the Paris Accords be enforced? How do we find a balance between the responsibilities of the developed and developing nations?

April 12, 2016
7:00 - 9:00 p.m.
Conaton Board Room
Xavier University
